PRESS RELEASE

Wednesday, November 16, 2016

In recent weeks, the police department has received several complaints in relation to trailers parked on the public streets in residential areas. After an initial assessment of the complaints, the department has observed numerous trailers parked on the streets in residential areas throughout the town. Town of Front Royal Code 158-19.1 states in part,

“It shall be unlawful to park trucks, tractor trucks, trailers or semitrailers upon the public streets and alleys of the Town of Front Royal located in any residential zoning district”.

Although the department understands that many of these same trailers are for work purposes and the parking is of convenience to the owner, the situation has become a problem. In an effort to ease any potential burden to our residents, we are making you aware of the parking prohibition and allowing until December 1, 2016 for any potential violations to be corrected and allow owners to make arrangements for the legal storage/parking of their trailers. After the above date, the department will be strictly enforcing the parking ordinance in relation to this issue. Everyone’s cooperation in this matter will be greatly appreciated.
